

HARNESSING THE POWER OF TEAMS

unitedED  VIRTUAL
CONFERENCE

FEBRUARY 12th, 2025 | 11AM - 5PM ET

What is unitedED?

unitedED is a one-day, virtual, continuing education event designed to harness the power of teams. Every expert will share their knowledge with the intention of elevating individuals, no matter their role or tenure. Each session will be designed to inspire independence, connection, collaboration and inclusivity.

This unique educational opportunity is open to all hospitals.

Veterinary medicine is about more than just the medicine, and it is why unitedED is so important. Your team will be uniting with Canadian veterinary teams across the country for a day of learning that will allow us to uplift our entire profession; developing resilient veterinary professionals and ensuring thriving teams, successful businesses, healthy patients and satisfied clients, nationally.

Alyssa Mages,

While you may choose to participate alone, we strongly believe in the concept of shared learning. For that reason, this registration fee enrolls, not only you, but your entire practice team in unitedED!

Registration to the live event unlocks access to recordings so that team members who cannot join live can still benefit from the unitedED learnings.

While on-demand access will last for 3 months - Vet Alliance members will have continued access in Octopoda for the duration of their membership.

REGISTRATION
